Question 5

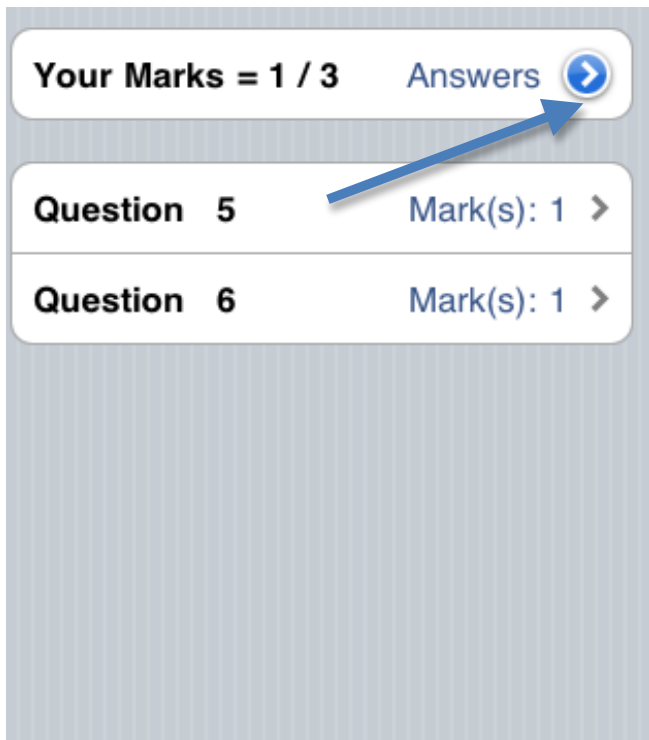

Mark(s): 1 >

Question 6

Mark(s): 1 >

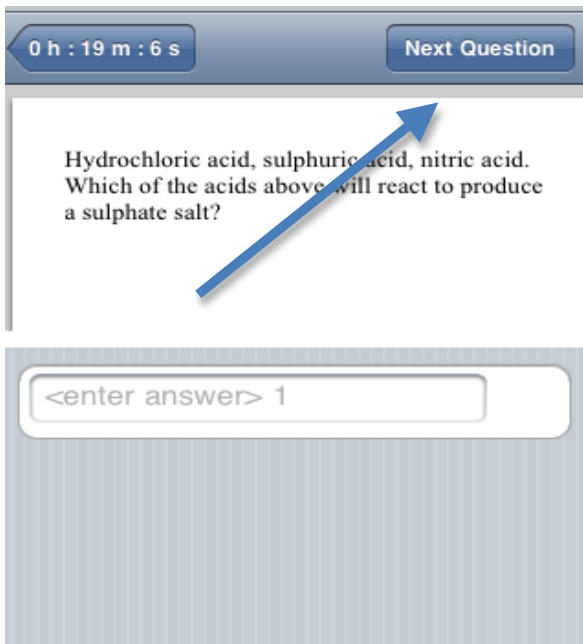

8. Click Answers to review answers

The screenshot displays a quiz results interface. At the top, a white rounded rectangle contains the text "Your Marks = 1 / 3" in bold black font, followed by the word "Answers" in blue and a blue circular button with a white right-pointing arrow. A large blue arrow points from the "Answers" button down to the first question entry. Below this, a table lists two questions. The first row shows "Question 5" and "Mark(s): 1" with a right-pointing arrow. The second row shows "Question 6" and "Mark(s): 1" with a right-pointing arrow.

Question 6	Mark(s): 1 >

9. **Important note:** On all questions that requires the use of the keyboard, click on “Next Question” to continue to the next question.

The screenshot shows a quiz interface with a blue header bar. On the left of the header is a timer displaying "0 h : 19 m : 6 s". On the right is a button labeled "Next Question". Below the header, the question text reads: "Hydrochloric acid, sulphuric acid, nitric acid. Which of the acids above will react to produce a sulphate salt?". A blue arrow points from the text area towards the "Next Question" button. At the bottom of the interface is a text input field containing the placeholder text "<enter answer> 1".

0 h : 19 m : 6 s

Next Question

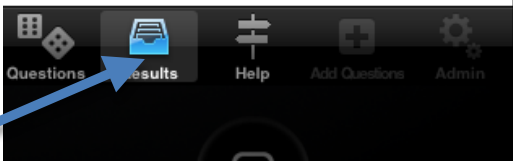

Hydrochloric acid, sulphuric acid, nitric acid.
Which of the acids above will react to produce a sulphate salt?

<enter answer> 1

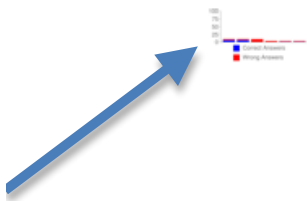

10. Click Result to view results. (Results are logged at the end of each practice.)
